

Executive Data Risk Overview

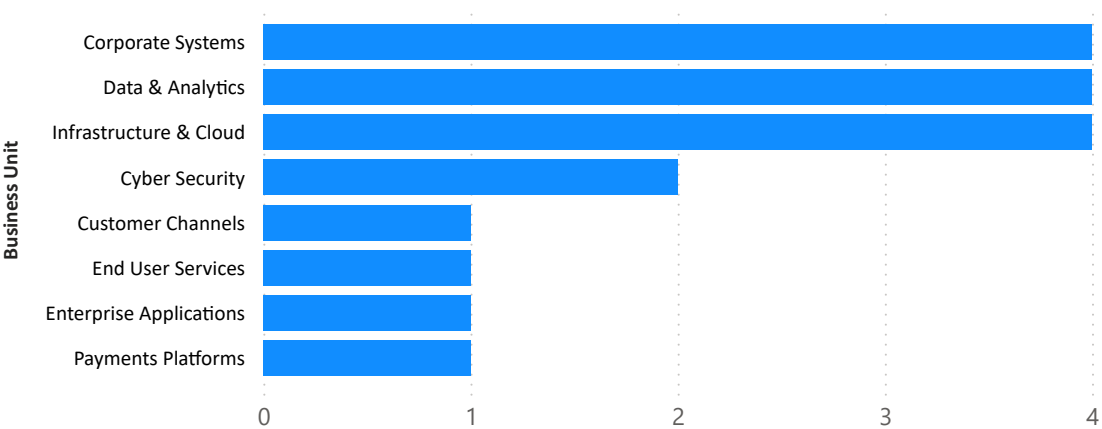

Enterprise view of high residual risks, weak controls and overdue remediation by business unit

Risk burden by Business Unit

High Residual Risks by Business Unit

Business Unit	RAG	Risk Exposure Score	Total Risks	High Residual Risks	Failed Control Tests	Overdue Actions
Data & Analytics	Red	196	23	4	31	19
Infrastructure & Cloud	Red	166	20	4	29	12
Cyber Security	Amber	132	18	2	35	9
Corporate Systems	Amber	123	11	4	13	6
Customer Channels	Amber	100	8	1	17	6
End User Services	Green	69	6	1	13	3
Payments Platforms	Green	66	6	1	13	3
Enterprise Applications	Green	65	9	1	15	3
Total		917	101	18	166	61

Risk Themes and Control Effectiveness

Recurring data risk themes, weak controls and high residual risks requiring management attention

Data - Synthetic data - 10/06/26 - Tony Thekkedath

Risk Themes

9

Failed Control Tests

166

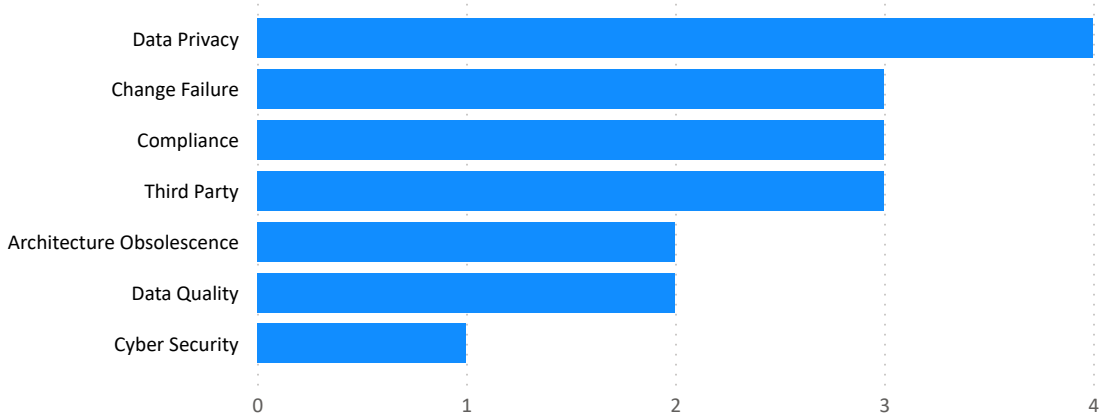

Ineffective Controls

41

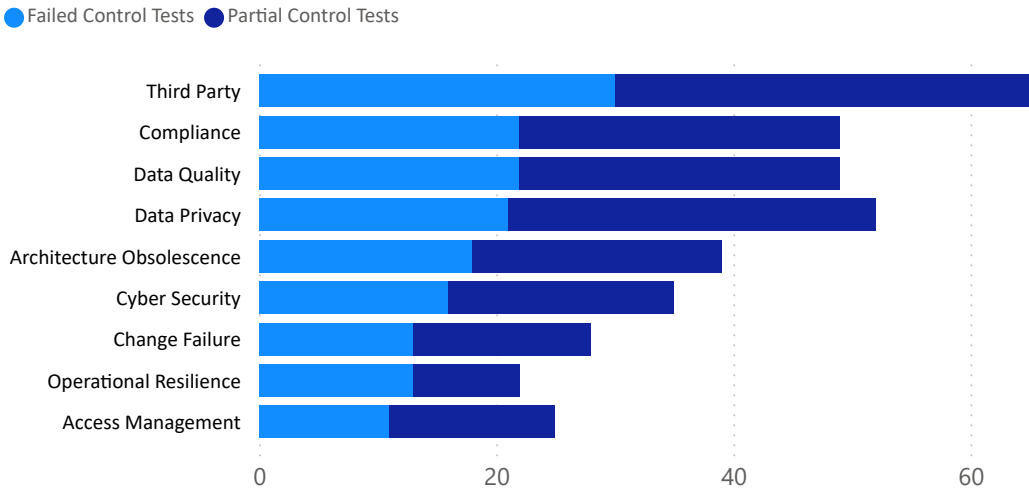

High Residual Data Risks

18

High Residual Risks by Data Risk Theme

Control Weakness by Data Risk Theme

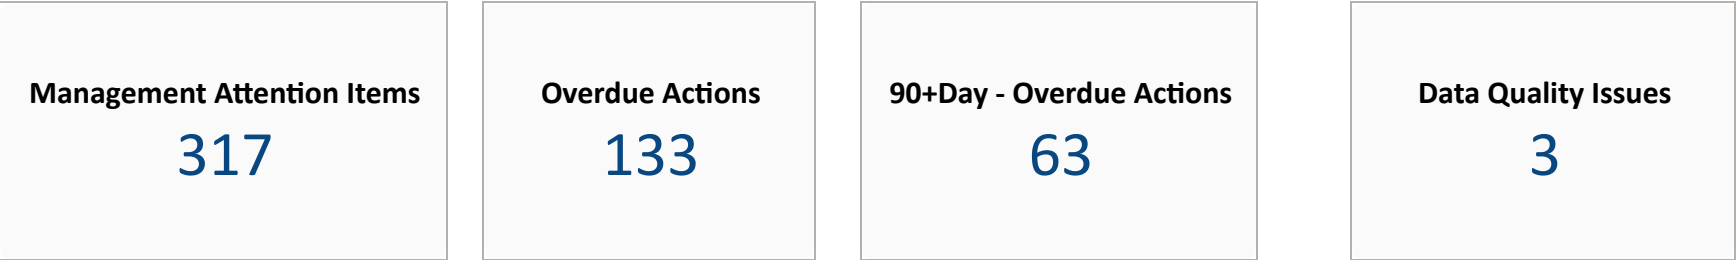

Data Risk Theme	Total Risks	High Residual Risks	Avg Residual Score	Failed Control Tests	Overdue Actions
Compliance	13	3	10.08	22	0
Data Privacy	13	4	8.69	21	0
Architecture Obsolescence	12	2	8.33	18	0
Change Failure	9	3	7.78	13	1
Cyber Security	7	1	7.57	16	3
Data Quality	11	2	6.73	22	2
Third Party	17	3	6.12	30	2
Operational Resilience	10	0	3.70	13	2
Access Management	9	0	3.33	11	1

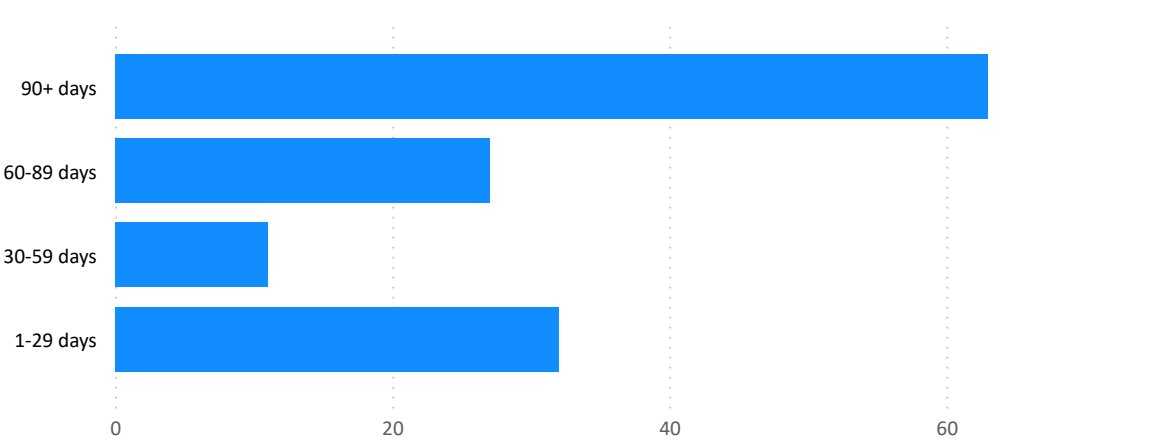

Control Name	Data Risk Theme	Business Unit	Application	Control Owner	Control Effectiveness	Failed Tests
Access recertification	Access Management	Cyber Security	Network Monitoring	K. Smith	Needs Attention	1
Access recertification	Architecture Obsolescence	Corporate Systems	Procurement System	D. Brown	Needs Attention	0
Access recertification	Architecture Obsolescence	Cyber Security	Network Monitoring	J. Nguyen	Needs Attention	1
Access recertification	Compliance	Corporate Systems	Backup Platform	S. Williams	Ineffective	2
Access recertification	Compliance	Enterprise Applications	Incident Console	P. Kumar	Needs Attention	1
Access recertification	Data Quality	Cyber Security	Project Portfolio Tool	R. Patel	Needs Attention	0
Access recertification	Data Quality	Data & Analytics	Integration Hub	J. Nguyen	Needs Attention	1
Access recertification	Operational Resilience	Infrastructure & Cloud	SAP Finance	N. Wilson	Ineffective	2
Access recertification	Operational Resilience	Payments Platforms	Identity Platform	P. Kumar	Needs Attention	0
Access recertification	Third Party	Corporate Systems	Observability Stack	P. Kumar	Needs Attention	1
Access recertification	Third Party	Customer Channels	Confluence	S. Williams	Ineffective	2

Remediation and Data Quality

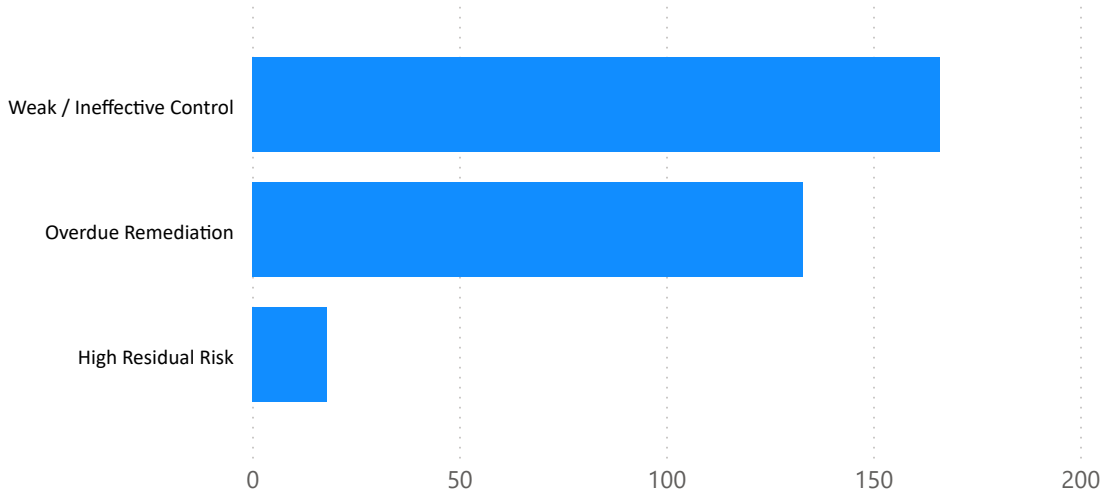

Overdue remediation, management attention items and data quality issues affecting risk reporting

Overdue Actions by Ageing Band

Management Attention Items by Type

Priority Items Requiring Management Attention

Item Type	Item Title	Business Unit	Owner	Recommended Action
Weak / Ineffective Control	Access recertification	Corporate Systems	D. Brown	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Corporate Systems	P. Kumar	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Corporate Systems	S. Williams	Escalate control remediation and retesting
Weak / Ineffective Control	Access recertification	Customer Channels	D. Brown	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Customer Channels	N. Wilson	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Customer Channels	S. Williams	Escalate control remediation and retesting
Weak / Ineffective Control	Access recertification	Cyber Security	J. Nguyen	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Cyber Security	K. Smith	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Cyber Security	R. Patel	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Data & Analytics	D. Brown	Review control design and recent test failures
Weak / Ineffective Control	Access recertification	Data & Analytics	J. Nguyen	Review control design and recent test failures

Data Quality Issues Affecting Risk Reporting

Issue Type	Source Table	Issue Count	Severity
Controls missing owner	Controls	0	High
Critical applications missing technology owner	Applications	0	High
High residual risks without linked controls	Risks / Controls	3	Critical
Overdue actions without owner	Issues_Actions	0	High
Risks missing owner	Risks	0	High
